Showcasing America's Wild Horses & Burros Across Every Arena

WHO WE ARE

The Mustang Heritage Foundation (MHF) is a 501(c)(3) nonprofit organization established in 2001 with a mission to help America's wild-bred mustangs and burros find lasting, responsible homes.

Since its founding, MHF has partnered with the public to place more than 24,000 wild horses and burros into private care, creating meaningful connections between people and these iconic animals while preserving an important part of America's heritage.

WHAT WE DO

MHF creates clear pathways from adoption to training, competition, and lifelong ownership, expanding education, advocacy, and community engagement along the way.

Through innovative programs and events, the Foundation promotes responsible stewardship. MHF supports federal partners by helping reduce long-term off-range holding costs, ensuring more sustainable outcomes for both animals and public resources.

WHAT WE BELIEVE

At the heart of the Foundation's work is a simple belief: these animals are capable, willing, and deeply deserving of opportunity. Too often, mustangs and burros remain misunderstood, leading to prolonged holding and limited adoption interest.

By showcasing their talent and versatility through performance and competition, MHF is transforming misconceptions into opportunities, as competition changes perceptions and drives adoption.
